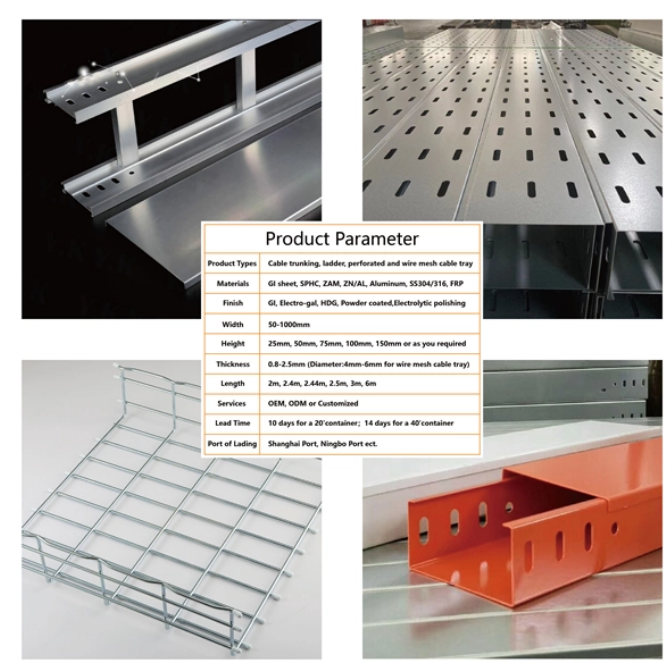
# XJ8000 Microcomputer Relay Protection Tester



Product Parameter

| | |
|---|---|
| Product Types | Cable trunking, ladder, perforated and wire mesh cable tray |
| Materials | GI sheet, SPHC, ZAM, ZN/AL, Aluminum, SS304/316, FRP |
| Finish | GI, Electro-gal, HDG, Powder coated,Electrolytic polishing |
| Width | 50-1000mm |
| Height | 25mm, 50mm, 75mm, 100mm, 150mm or as you required |
| Thickness | 0.8-2.5mm (Diameter:4mm-6mm for wire mesh cable tray) |
| Length | 2m, 2.4m, 2.44m, 2.5m, 3m, 6m |
| Services | OEM, ODM or Customized |
| Lead Time | 10 days for a 20'container; 14 days for a 40'container |
| Port of Lading | Shanghai Port, Ningbo Port ect. |

## XJ8000 Microcomputer Relay Protection Tester

| | |
|---|---|
| | Designed with advanced technology, it allows electrical engineers and technicians to assess the functionality and reliability of relay protection systems, ensuring the safety and efficiency of power ... |
| | With its excellent quality and competitive price, our Relay & Protection Microcomputer Test Set Six Phase Protection Relay Testing Equipment Relay Tester 8.4 Inches are sold in many countries and ... |
| | Relay protection microcomputer test device plays a key role in operating electricity power systems reliably and safely. It is the testing device used in professional ... |
| | The Changjiang Electric CJE Microcomputer Relay Protection Test System 803 is a powerful tool designed to ensure the performance and reliability of relay protection devices in electrical networks. |
| | Product Description Relay protection testing device is an important testing tool for ensuring power system running safely and reliably. HDJB series relay protection tester is a new style ... |

| | |
|---|---|
| | The protection, measuring and control device for voltage class of 10kV and below, integrates protection, measurement, control and communication, which can realize protection of various elements and ... |
| | It''s not only can test on traditional relays and protection devices, but also can test on various microcomputer protection, especially better test for transformer differential protection and automatic ... |
| | Equipped with advanced DSP technology, a high-fidelity linear amplifier, and multiple digital interfaces, it ensures reliable, efficient, and automated protection system calibration. Compact and portable, it''s ... |
| | Relay protection microcomputer test device plays a key role in operating electricity power systems reliably and safely. It is the testing device used in professional field of microcomputer protection, ... |
| | It can test not only various traditional relays and protection devices, but also various modern microcomputer protections, especially for transformer differential protection and standby automatic ... |
|  | Smart Multi-phase Relay Protection Tester is a new generation of intelligent relay protection test equipment for Substation ABB, Siemens, SEL, Schneider, NR microcomputer protection device etc. |
