

1200W Diode Laser

1200W Diode Laser

The Intense series 1200 of high power CW visible diode lasers are the state of the art in visible diode lasers today. These broad area multimode lasers offer extremely high brightness, excellent reliability, ...

Maximize your hair removal results with our 1200W Diode Laser Handpiece. The 10x12mm concentrated spot size delivers superior energy density, making it ideal for stubborn and fine hair removal.

SkinAct 1200W 808nm diode laser hair removal system with integrated sapphire cooling plate, 5 spot sizes and adjustable 0-120J/cm² fluence for professional clinics.

The 1200W 808nm Horizontal Stack Diode Laser is a pulsed laser ...

1200W Portable Diode Laser Machine High Cooling Semiconductor Beauty Equipment Hair Removal 4 Wavelengths (808nm 755nm 940nm)

Home Diode Laser Water cooled Diode laser HS-MA-1200-6-200 1200W Diode Laser Linear Array (Water Cooling)

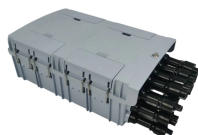

Equip your clinic with the elite 1200W professional diode laser machine. Featuring a USA Coherent® laser bar for maximum reliability, -29°C TEC cooling for painless treatments, and a 100 million shot ...

Equipped with a 1200W handpiece, FDA Approval, and premium USA Coherent Laser Bars, it delivers safe, fast, and virtually painless permanent hair removal ...

Designed for high-volume clinical environments, the 1200W Diode Laser Hair Removal System delivers gold-standard permanent hair reduction across all skin types (I-VI) and hair colors.

The 1200W 808nm Horizontal Stack Diode Laser is a pulsed laser with high light intensity and high energy, which can be widely used in various fields, including Diode-Pumped Solid-State, ...

This fiber-coupled laser diode module from DILAS has the following key features: These lasers have high coupling efficiency, scalable output power, industrial water cooling, are single wavelength, and ...

Equipped with a 1200W handpiece, FDA Approval, and premium USA Coherent Laser Bars, it delivers safe, fast, and virtually painless permanent hair removal across all skin types.
