

16G Fiber Port Module

16G Fiber Port Module

Learn about SFP 16G transceivers, including specs, types, Fibre Channel standards, and real-world applications in SAN and data center networks.

16G Fiber Channel SFP+ optics keep storage networks stable when latency, link budget, and compatibility matter. This article helps SAN engineers and storage administrators choose the ...

This 16GFC SFP+ module is tri-rate, meaning it can auto ...

This 16GFC SFP+ module is tri-rate, meaning it can auto-negotiate its speed to match the port it is connected to. It will operate seamlessly at 16G, 8G, or 4G Fibre Channel speeds, providing excellent ...

10Gtek® 16G SFP+ fibre channel transceivers are suitable for 16G fibre channel and 10G Ethernet applications. This fibre channel transceiver solution supports high-speed serial links over multimode ...

Optcore 16G SFP+ transceivers are an industry-standard fibre channel (16G FC) module for storage area networks (SANs) applications. Those modules offer short wavelength (SW), long wavelength ...

Fibre channel transceivers are suitable for Fiber Channel storage networks and Ethernet applications. The characteristics of small size and low power consumption meet the needs of fast and lossless ...

Cisco DS-SFP-FC16G-SW 16-Gbps Fiber Channel Short Wave - LC Multi-Mode SFP+ Transceiver Module - Brand New Overview The Cisco 16-Gbps Fiber ...

Featuring EML laser technology and narrow spectral width, these modules deliver high-density fiber capacity for service provider networks and data center interconnects at 20-40km distances.

The Brocade compatible Module provides 16GBase-LR throughput up to 10km over single-mode fiber (SMF) using a wavelength of 1310nm via an LC duplex connector. This transceiver is compliant with ...

Cisco DS-SFP-FC16G-SW 16-Gbps Fiber Channel Short Wave - LC Multi-Mode SFP+ Transceiver Module - Brand New Overview The Cisco 16-Gbps Fiber Channel SFP+ transceiver is designed to ...

Smartoptics multiprotocol SFP+ transceivers support Fibre Channel speeds up to 16G and 10G Ethernet for storage, enterprise and mobile networks. SFP+ transceivers are focused on SAN protocols ...
