

Aluminum Alloy Optical Cable Junction Box for North Korean Pole

Aluminum Alloy Optical Cable Junction Box for North Korean Pole

High quality Aluminum Alloy Plastic OPGW Joint Box 12 24 36 Core from China, China's leading OPGW Joint Box 12 Core product, with strict quality control Aluminum Alloy Plastic OPGW Joint Box ...

The metal joint box are applicable for connection protection of special optical cables, with the functions of direct and branch connection, with the maximum of 6 optical cables, which mainly for overhead rods ...

Metal joint box is made up of aluminum alloy and stainless steel materials, especially suitable for the protection of fiber cable joint under the high voltage electric field.

The closure can be used as a direct and branching joint closure for OPGWs and ...

Product structure features: Optical cable joints and excess length are stored in sheets, and the joint protection is reinforced with heat shrinkable sleeves. The ...

Used for intermediate connection and branch protection of ADSS fiber optic cable lines, it can play a role in sealing, protecting the placement of optical fibers, and storing reserved optical fibers.

The closure can be used as a direct and branching joint closure for OPGWs and as for terminating OPGWs at the end pole to non-metallic duct or buried cables. The metal optical cable splice closure ...

The metal joint box are applicable for connection protection of ...

There are two models of metal joint boxes, one is to be mounted on poles and the other is to be mounted on towers. Metal joint box is made up of aluminum alloy, especially suitable for the ...

Cable Joint Box is sold as an assembly. A Cable Storage Shelf and Fix Clamp are needed when installed on the tower, A Cable Storage Shelf and three Stainless Steel Bands are needed when ...

ADSS/OPGW Metal Junction Boxes come in various models for both tower and pole applications. They're available with different port configurations and fiber capacities, ranging from 12 to 60 fibers. ...

Durability: Constructed from durable materials such as stainless steel or aluminum alloy, the opgw cable joint box offers resistance to corrosion, mechanical stress, and UV radiation, ensuring long-term ...

Product structure features: Optical cable joints and excess length are stored in sheets, and the joint protection is reinforced with heat shrinkable sleeves. The joint box is sealed with steel belt and ...
