

Cable tray hanging upside down

Installation Overview: The wire basket becomes a cable management station. It is going to hold the power strip and be hung upside down under the desk using cup hooks.

Each tray section should be bonded to an adjoining section using listed bonding jumpers or a continuous ground wire and clamps (such as a copper ground bolt). Powder coated tray requires the removal of ...

As far as I know, it is impossible to create them upside down. You can create them normally, and in a section, create a line and mirror using this line as a reference.

I've seen tray installed upside down but never used upside down. You may see a random cable here and there tied to the bottom side but this is just wrong on every level.

I've seen tray installed upside down but never used upside down. ...

Those cable trays are indeed designed to be installed "upside-down". The "sidewalls" of the Wyr-Grid aren't really high enough to hold a significant number of cables anyways.
