

Cat optical amplifier

Cat optical amplifier

HA5400A (1RU) series is a high power multi-ports optical amplifier with gain spectrum band within 1540~1563nm. It is mainly designed for the application of CATV or 1~8 continuous banding channel ...

These amplifiers are designed for amplification of up to 8 multiplexed DWDM ...

Fiberinthebox CATV Optical Amplifier is used to increase the output power of the transmitter and prolong the signal transmission distance. It is widely applied for TV signals, digital video, telephone, and data ...

Long-Distance Audio Transmission over CAT Cable
- Extends optical and analog audio signals up to 300m (990ft) at 48kHz, 150m (495ft) at 96kHz, and 100m (330ft) at 192kHz using a single CAT5e/6 ...

These amplifiers are designed for amplification of up to 8 multiplexed DWDM optical channels. Any optical signal within the 1550 band is amplified to the rated output power level regardless of protocol ...

EDFA Fiber Amplifier 1550nm 14dBm for the long distance optical fiber transmission of digital CATV signal telephone voice signal and data (or compressed data) signal.

The EDFA is booster amp for long haul transmission networks or FTTH distribution networks. This optical amplifier is packaged in a 19" rack mount housing to provide a complete optical ...

MACOM's FTTx amplifiers are designed for PON, RFoG and SFU receiver equipment and are offered in small, plastic QFN packages with integrated amplifier and attenuator functions. All parts cover the full ...

The EDFA Lite CATV/PON Optical Amplifiers are available for analog, QAM, CATV and RF optical signal amplification. They are also available with 1 to 32 outputs. These amplifiers are used for direct ...

The Optical & Analog Audio Extender is a reliable plug-and-play solution for transmitting both digital and analog audio over long distances using a single CAT5E/6 cable.

It modulates CATV RF amplitude signal into 1550nm optical signal and then transmits it to optical node in HFC network through single-mode optical fiber. It is mainly used for TV signal medium-sized ...
