

Compatible 400G Access Switches

Compatible 400G Access Switches

SSE-T8032 comes with twin port 2x400GbE with 32 physical OSFP ports, offering denser 64x400GbE in just 1U form factor. The interface provides flexibility to meet variety of speed and used cases such as ...

For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and spine, routing transformation and hyperscale IO intensive ...

400G 800G 400G 800G LinkX cables, transceivers, ConnectX -7 and BlueField-3 DPUs contain both InfiniBand and Ethernet protocols. Specific protocol is activated when inserted into the switch.

Built for hyperscale data centers, these 400G Ethernet solutions deliver massive scale, low latency, and exceptional power efficiency for cloud applications.

Guaranteed Compatible: In System tested in over 90 OEM switches, routers and servers. 99.98% Reliability Rate: Functionally, optically and environmentally tested to exact specifications. Industry ...

Choose from new price-performance options on merchant silicon in our 400G and 800G switches and routers to reach new benchmarks of performance and functionality.

Based on Cisco ® Cloud Scale technology, the Cisco Nexus ® 9300-GX switches are the next generation of fixed Cisco Nexus 9000 Series Switches capable of supporting 400 Gigabit ...

This solution combines the powerful processing capabilities of 800G OSFP switches with 400G CX7 network cards. It utilizes NADDOD optical modules to enable efficient data exchange between devices.

Transceiver Customization for Full Compatibility Configuring with FS BOX or Coding Board and testing in the targeted switch environment for high ...

Discover the power of Open Networking with 1-1.6T Open switches. Ideal for public and private cloud data centers of all sizes.
