Overview

Genew Technologies and Zhongshi Wosen, both Chinese companies, will help the Democratic Republic of Congo (DRC) build its fiber optic network. SOCOF is a one-person limited company in which the Congolese State is the sole shareholder. It is governed by the Uniform Act revised on January 30, 2014 relating to the law of Commercial Companies and Economic Interest Grouping and by all other laws and regulations in force in the DRC, not. The Central African Backbone (CAB) sub-regional project, born from the will of the heads of state of the CEMAC zone, aims to put digital technology at the service of the populations, by opening up the isolation of departments and promoting digital inclusion. As a national project, the CAB project's. Silicone provides the physical infrastructure that unlocks digital transformation across the Central African region. The Congolese Minister of Telecoms, Augustin Maliba, signed the related memorandum of understanding (MoU) on April 7, 2025. The company has 4797 active competitors, including 99 funded and 683 that have exited.
