

Customized Spectrometer

Customized Spectrometer

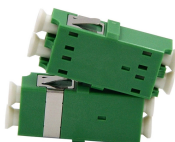

LightMachinery is a manufacturer and supplier of custom spectrometers. If you need to discuss the various parameters and trade-offs please contact us here.

Discover the power of a customized miniaturized NIR spectrometer integrated for your analysis needs. Get detailed insights and accurate results with our advanced material analysis solutions, designed ...

LightMachinery is a manufacturer and supplier of custom spectrometers. If you need to discuss the various parameters and trade-offs please ...

Despite its miniature < 27 x 29 x 19 mm size at only 30 g, the MicroSpec Duo delivers the precision and reliability needed for demanding spectral power measurements—ideal when space is at a premium ...

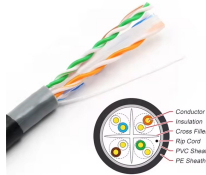

Our DIY building blocks have the flexibility of arranging key components using light travel via fiber optics starting with laser, spectrometer, sampling probes/cuvette holders which are assembled on our base ...

NLIR can customize our standard spectrometer to optimize performance in the wavelength range that suits your application the best. Generally, a narrower wavelength range gives higher response and ...

Explore our range of high-quality spectrometers, spectrographs and monochromators designed for various applications. Custom solutions available.

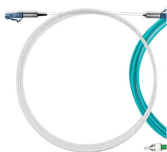

Despite its miniature < 27 x 29 x 19 mm size at only 30 g, the MicroSpec Duo delivers the precision and reliability needed for demanding spectral power ...

HORIBA offers spectrometers, monochromators, and scientific cameras with customizable features for all your optical components needs.

So if you are unable to come up with a good solution using our “standard” spectrometer range, please contact the AMS Technologies spectrometer experts now to discuss your customized spectrometer ...

Learn how Ibsen Photonics can help you develop custom OEM spectrometers, including design, prototyping, and manufacturing processes.

Aside from the standard spectrometer portfolio, we offer turn-key spectrometers tailored to the specific application. Custom-designed spectrometers for the VIS / UV / VUV / XUV / EUV / X-ray range. Ions ...
