

## Customized Spectrometers

## Customized Spectrometers

LightMachinery is a manufacturer and supplier of custom spectrometers. If you need to discuss the various parameters and trade-offs please contact us here.

With diverse instruments range from handheld portable spectrometers, high-performance UV-VIS-NIR-SWIR spectrometers, hyperspectral imagers, and portable mass spectrometers. BaySpec's ...

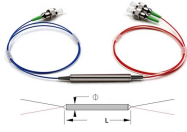

Check here to see if there is something you can use. We also provide state of the art components and services for the soft x-ray and vacuum ultraviolet region. We offer optimized spectrometers for ...

Our custom spectrometers (both imaging and non-imaging) feature aberration-corrected design, maximizing edge-to-edge performance, as well as spectral and spatial resolution and low scatter.

HORIBA offers spectrometers, monochromators, and scientific cameras with customizable features for all your optical components needs.

Aside from the standard spectrometer portfolio, we offer turn-key spectrometers tailored to the specific application. Custom-designed spectrometers for the VIS / UV / VUV / XUV / EUV / X-ray range. Ions ...

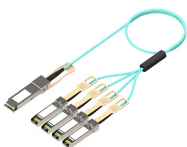

Our supplier Mightex offers a wide range of custom spectrometer solutions, exactly tailored to your needs. So if you are unable to come up with a good solution using our "standard" spectrometer ...

Learn how Ibsen Photonics can help you develop custom OEM spectrometers, including design, prototyping, and manufacturing processes.

Get Quotations on your custom Spectrometer requirement from multiple manufacturers via GoPhotonics. Enter your requirements, details and upload any supporting files.

Tailor CUSTOM Spectrometer in the MIR wavelength range to get most-optimized measurements for volume spectroscopy needs. Reach out today!

## Contact Us
