

Direct supply from EU optical module manufacturers

Overview

Find a list of optoelectronics suppliers in Europe offering advanced electronic components and systems for optical applications. Our optical modules power demanding telecom and datacom networks across data centers, metro and long-haul links. ORAFOL Fresnel Optics GmbH is a production and sales organization based in Apolda (Thuringia). Large stock in Belgium, linked to an efficient logistics center, allows us to ship to you quickly. Transceiver stands for Transmitter/Receiver Module. Swedish Telecom Opto is built for scale — not single-click sales. We do not prioritise one optics manufacturer over another. Choose your own search criteria.

Direct supply from EU optical module manufacturers

We manufacture individual optical and optoelectronics OEM modules for our customers. The tasks and solutions are diverse and range from classic lenses and high-performance lighting modules to ...

We deliver high-performance 100G, 400G and 800G optical transceivers optimized for data centers, metro transport and long-haul links. Our modules meet the latest standards and integrate seamlessly ...

ORAFOL Fresnel Optics GmbH is a production and sales organization based in Apolda (Thuringia), specializing in microstructured optical components made of plastic.

Find a list of optoelectronics suppliers in Europe offering advanced electronic components and systems for optical applications.

Here you find all 1810 registered suppliers in alphabetical order. Click on a letter to find the suppliers beginning with that letter (or with a digit) more quickly: Display filter for continents: Another way of ...

Search for and compare optical components from manufacturers around the world, or for custom jobs we'll match you with an industry expert service provider.

We collaborate directly with the leading optical factories behind the world's biggest brands — delivering the same high-quality modules, but without the inflated price tags.

At Fibermarkt, we provide compatible and reliable optical modules at a great price. Our experienced group of engineers specializing in optical technology ensures the high quality and jitter-free operation ...

Skylane Optics offers the full range of transceivers with an unique set of services, such as testing, coding, customization, effective support & technical expertise. The transceiver-cable consists ...

We manufacture optical transceivers and high-speed copper cables in-house, from legacy links to 1.6T, giving hyperscalers and AI networks control over compatibility, supply, and scale. Our flagship ...
