

Dominic secondary distribution box manufacturer

Overview

Custom manufacturer of corrosion resistant power distribution enclosures for indoor and outdoor applications. Made from aluminum and stainless steel. Can be integrated with PCBs, coolers, wiring, harnesses, and test documentation. The Secondary Distribution Box (SDB) receives power from Main Power Distribution box via an extender cable and provides a central power distribution to feed normal branch circuits to the electric floor modules through snap-on extender cables. Enhance safety and efficiency in every installation while ensuring optimal power. OEM customers rely on our integrated design, engineering, and manufacturing expertise to deliver custom panels and assemblies. Engineered for technical superiority and built to the highest standards, our solutions are trusted to perform reliably in the most demanding environments.
