

Egypt Long-Distance Optical Transceiver Bestseller

Overview

SFP-10G-LR - 10Gbps 10GBASE-LR SFP+ Transceiver The SFP-10G-LR is a high-performance optical transceiver module designed for 10 Gigabit Ethernet applications. It supports long-range (LR) connectivity over single-mode fiber (SMF), enabling reliable data transmission up to 10 kilometers. Cash on Delivery (COD) payment method allows you to pay by cash at your doorstep for fulfilled by Amazon and some seller fulfilled items. You will not see the Cash on Delivery as an available payment method on check out If you have at least one condition that is incompatible with cash on delivery. Optical transceivers are critical components in modern communication infrastructure, enabling the high-speed transmission of data across optical fiber networks. It comprises a transmitter and a receiver, both of which utilize fiber optic technology to convert electrical signals into light signals and vice versa. It supports transmission distances up to 10 km at 1310 nm, features digital diagnostic monitoring (DDM), and ensures reliable. These compact, hot-swappable SFP transceivers are used to connect switches, routers, and servers using fiber or copper media, while offering unmatched compatibility and upgrade potential.

Egypt Long-Distance Optical Transceiver Bestseller

All SFP transceivers are competitively priced with a 90-day replacement warranty. Server Basket offers low-cost, high-quality, and authentic SFP transceivers, whether you need a single-mode SFP for ...

Overall, the Egypt Optical Transceiver Market presents lucrative opportunities for companies operating in the optical communication industry to capitalize on the growing demand for high-speed data ...

Discover high-performance optical transceivers at T1 Nexus. Our multi-coded transceivers support all major form factors and speeds, including SFP, QSFP, and OSFP, with data rates from 1G to 800G.

Discover the top 10 optical transceiver manufacturers advancing 400G and 800G modules powering hyperscale data centers and next-generation networking infrastructure.

The Huawei OSX010000 is a high-speed 10GBASE-LR SFP+ optical transceiver module with an LC duplex connector, designed for 10 Gbps Ethernet over single-mode fiber (SMF).

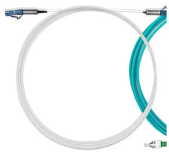

Discover the top optical transceiver manufacturers in 2025, including industry leaders like Coherent Corp., Lumentum Holdings, Broadcom Inc., and InnoLight Technology. Learn how these ...

With their compact design, low power consumption, and compliant standards, these optical transceivers are the go-to choice for data centers, high-performance computing networks, and ...

D-Link Egypt Authorized Partner offers the DEM-310GT D-Link 1-port SFP LX SM Fiber Transceiver, which supports long-distance connectivity of up to 10 kilometers and provides high-performance data ...

Explore the diverse range of 400G transceivers addressing the growing bandwidth demands of long-distance transmission. Discover flexible solutions for efficient and reliable ...

It supports long-range (LR) connectivity over single-mode fiber (SMF), enabling reliable data transmission up to 10 kilometers. This makes it ideal for data centers, enterprise backbones, and ...
