

Extinction Ratio Tester from OZ Company Angola

Extinction Ratio Tester from OZ Company Angola

OZ Optics'' Polarization Extinction Ratio Meter allows one to quickly measure the output extinction ratio of light from a fiber. A rotating polarizer measures the extinction ratio and the orientation of the ...

High Resolution: Features 0.01 dB resolution in Extinction Ratio (ER) and 0.3° in polarization angle. Professional Fiber Optic Test Set: OZ Optics ER-100 Series.

- Measures up to 50 dB polarization extinction ratios (for specific wavelength range)
- Very wide wavelength range: 450 to 900 nm for visible wavelength range; 850 to 1650 nm or 1800 to 2400 nm ...

OZ Optics'' ER-1000 series of benchtop polarization extinction ratio meters allows one to quickly measure the output extinction ratio of light from a fiber. A rotating polarizer measures the extinction ...

Comes from a working facility. â€¢ Measured up to 40dB extinction ratios. â€¢ Built-in USB communication. â€¢ Wide wavelength range.

Be the first to review this product!

The ER-100-IR from OZ Optics Ltd. is a Polarization Extinction Ratio Meter that operates at a wavelength of 850 nm - 1650 nm. It has an extinction ratio of 30 dB (850 nm - 1290 nm) & amp 35 dB ...

OZ Optics'' Polarization Extinction Ratio Meter allows one to quickly measure the output extinction ratio of light from a fiber. A rotating polarizer measures the extinction ratio (ER) and the orientation of the ...

Measures up to 40 dB Extinction Ratio range between 980 nm to 1060 nm. It has ...

Measures up to 40 dB Extinction Ratio range between 980 nm to 1060 nm. It has a built in RS 232 Communication Interface, a 0.01 dB resolution in ER and 1 dB ER accuracy.

OZ Optics'' Polarization Extinction Ratio Meter allows one to quickly measure the output extinction ratio of light from a fiber. A rotating polarizer measures the extinction ratio (ER) and the orientation of ...
