

# **Fho-3000 Optical Time Domain Reflectometer**

## Fho-3000 Optical Time Domain Reflectometer

The GRANDWAY FHO3000L-D26 reflectometer is used to measure reflectance, estimate attenuation and analyse events in the transmission optical path.

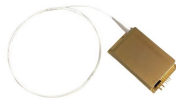

Grandway offers a wide range of OTDR fiber optic options to meet the challenges of various optical network testing including the flagship model FHO5000 series, covering a variety of dynamic range ...

Optical Time-Domain Reflectometer Grandway FHO3000-D26. We sell software/hardware solutions, spare parts and tools for mobile phone servicing.

FHO3000L mini OTDR is a multi-functional optical tester, which integrates auto OTDR, expert OTDR, Event map, optical power meter, visual fault locator, stable laser source, optical loss test, RJ45 cable ...

The Grandway FHO3000L Optical Time Domain Reflector (OTDR) is a high-performance fiber optic testing tool designed to deliver accurate and reliable results for fiber optic network troubleshooting, ...

GrandWay OTDR FHO3000L D26L. suitable for installation, maintenance and operation of optical network. Smart OTDR with touch screen. This OTDR comes with a calibration certificate. This OTDR ...

Detailed description and specifications of the Grandway FHO3000 series of miniature touch optical reflectometers.

The GrandWay FHO3000 is a series of compact and cost-effective Mini OTDRs (Optical Time Domain Reflectometers) used for testing and maintaining fiber optic networks.

The FHO3000-D26-A from Grandway Telecom is a Optical Time Domain Reflectometer (OTDR) with Event Dead Zone 3 m, Attenuation Dead Zone 8 m, Optical Wavelength 1310 to 1550 nm, Dynamic ...

Grandway FHO3000-D35 is a singlemode optical time-domain reflectometer with 1310/1550 nm wavelength and 35/33 dB dynamic range. Is characterized by compact and lightweight design to be ...
