

Fiber Optic Splitter Module

Fiber Optic Splitter Module

Learn how fiber optic splitters work, types (PLC, FBT), and uses in FTTH/data centers. Understand signal splitting, key specs, and how to choose the right splitter.

Fiber optic splitters include PLC type fiber optic splitters and FBT type fiber optic splitters. Available in single mode and multimode with 900 μ m loose tube fiber or 250 μ m bare fiber connectorless or any ...

FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission. Deploying compact FS PLC Splitters ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

Single-mode Fiber PLC splitter (Planar Lightwave Circuit). These PLC splitters provide a low-cost solution for optical signal distribution in optical networks, with LGX Module types and 19" Rack Mount.

Clearfield leads the way with optical component technologies for PON splitting, C/W division multiplexing and optical circulators. These products are custom built to your unique split ratios, light requirements ...

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.

A Fiber Optic Splitter is a passive optical component used in FTTH, FTTx, GPON, and EPON networks to distribute optical signals from one input fiber to multiple output fibers.

Learn how to choose the right fiber optic splitter for FTTH and FTTX deployments. Compare PLC splitter ratios, packaging types, and installation options.

Each splitter module features connectorized inputs and outputs. The compact yet robust LS Series splitter modules are available in multiple configurations (1x64, 1x32, dual 1x16, dual 1x8).

Explore our comprehensive selection of high-performance fiber optic splitters. We ...
