

Fiber optic ODF rack with left and right cable entry points

Fiber optic ODF rack with left and right cable entry points

Applicable for intermediate fiber distribution, with flexible and simple fiber cross-connection and route scheduling. Entry and exit of cables from both the left and the right of the unit box, thus making ...

- Tray style, convenient for operation
- Available in 2 models with different capacities (48 cores for SC and 96 cores for LC)
- Providing 2 types of functions (fiber termination, and integrated fiber splicing ...

Roksystem offers datacenter solutions using fiber optic technologies to enable fast and reliable data communication. Our expert team provides customized solutions for the planning and implementation ...

Achieve successful cable management, handle high amounts of fiber cable and add density to fiber frames with the new DCX Optical Distribution Frame (ODF) System which features innovations like ...

CR ODF rack offers a wide range of peripherals that come together to complete the integrated rack level cabling management. Additional features such as cable protection, power distribution and shelving ...

ODF series indoor optical fiber distribution box is used in the terminal access link of FTTH system. It is a device that splices, distributes, and splits optical fibers and provides protection and management of ...

The ODF is a purpose-made rack designed to accommodate high density Feeder Panels or Splitter Panels used in FTTH PON networks. The rack can be made as a stand-alone solution, or it can be ...

LongXing optical fiber distribution frame GPX09T is made of top quality steel and deformed aluminum alloy and treated with galvanizing, oxidation and electrostatic ...

Bottom Jumper Management Channels allow routing fibers at the bottom of cabinet-frame row instead of in dedicated overhead cable trays. Front and back doors and side panels are available as accessories.

ODF series indoor optical fiber distribution box is used in the terminal access link ...

LongXing optical fiber distribution frame GPX09T is made of top quality steel and deformed aluminum alloy and treated with galvanizing, oxidation and electrostatic plastic spraying. The frame has solid ...

Explore optical distribution frames (ODF) with efficient distributed chassis solutions at CommScope
