German Intelligent Relay Protection Tester

The SMRT1 single-phase relay test system and SMRT1D are standalone units that combines high compliance voltage with high current to test electromechanical, solid-state and microprocessor ...

Universal secondary injection test set for testing all kind of protective relays and protection schemes; the MENTOR 12 incorporates the latest designs and concepts for testing protective relays, based on ...

Reliably working protection relays are key in modern energy systems. Read on to learn about best practices, challenges, and trends in protection testing.

Verify that your protection relays operate correctly when faults occur. Megger's smart relay testing solutions and expert support help you validate protection performance, improve system reliability, ...

The robust and universal solution for testing protection relays. ...

The SMRT410 and 410D Megger relay test system is a multipurpose, lightweight, field portable test set capable of testing a wide variety of electromechanical, solid state, and microprocessor-based ...

KPM relay testing equipment with high current rating, precision & advanced software. Ideal for distance, differential, df/dt & protection relay testing.

DRTS 3 PLUS power system simulator is designed to give the highest accuracy when testing and calibrating protective relays, energy meter, transducer and power quality devices. This diagnostic ...

The analysis is structured to be adaptable to any Germany Protective Relay Tester Market while providing actionable, region-specific insights.

The robust and universal solution for testing protection relays. Packed in a handy, extremely robust and resistant hard shell case, the versatile test system is also ideally suited for challenging outdoor use, ...

Smart Multi-phase Relay Protection Tester is a new generation of intelligent relay protection test equipment for Substation ABB, Siemens, SEL, Schneider, NR microcomputer protection device etc.
