

Guinea Red Laser Diode Module

Guinea Red Laser Diode Module

Our red laser selection includes modules that are highly-precise, feature PID temperature control loops, adjustable focus, digital or analog output, and so much more.

Select a laser module range below to find more information and download datasheets.

Durable red laser modules for precision and performance. Explore solutions crafted for accuracy. Enhance your projects!

LR-Series Laser modules are fully self-contained with integrated laser driver circuit, aspherical plastic lens optics and laser diode in a compact brass body. Unique properties include compact size, ...

Our Red Line Laser Diode Modules generate a clear reference point for many unique applications and are available in varying wavelengths (635nm and 650 nm shown), and output power (1mW-3mW/ ...

Red wavelength laser diode modules with dot or line output.

Self-contained Red Line Laser modules with integrated laser driver circuit, optics and laser diode.

Shop the best Lights88 Laser Diode Module at Ubuy Guinea. Get a 360-degree laser line and circle laser with a 5mw diode module that emits a 635nm red line.

Integrated with one glass lens and one polycarbonate lens, this red laser diode module provides a very stable red line for industrial alignment, military and medical device targeting, and positioning.

It is compatible with various stone processing equipment, projecting a bright, fine red dot as a reference positioning light source for stone cutting, drilling, carving, and edge grinding.
