Optical modules are widely used in switches, network cards, routers, and other communication equipment. The QSFP+ module is designed for use in 40GBASE Ethernet throughput up to 10km over single mode fiber (SMF) using a wavelength of 1310nm via duplex LC connectors.

H3C Optical Module Installation

I recently purchased this 40G module for my data center and have been very impressed with its performance. The installation process was quick and easy, and the signal quality is excellent.

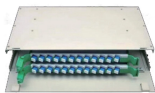

Insert PoE optical transceiver modules only into the photoelectric hybrid ports (PSFP or PSFP+ ports). To connect the photoelectric hybrid ports, use hybrid copper-fiber cables with fiber PoE patch cords.
