

High-density fiber optic distribution frame GPON

Overview

The frame includes centrally positioned 19" mounting rails, ideal for installing Optical Distribution Frames (ODFs). Provides ample space for fibre distribution and storage, ensuring easy installation and operation. The frame has solid structure and pleasing appearance. The rack mount patch panel is made of top quality metal material and could contain up to 12. Achieve successful cable management, handle high amounts of fiber cable and add density to fiber frames with the new DCX Optical Distribution Frame (ODF) System which features innovations like flippable cassettes, modular frame design and multiple configuration options. Made from high-quality steel and deformed aluminium alloy, treated with galvanizing, oxidation, and electrostatic plastic. The FxHD Frame provides the ultimate in modularity and flexibility to scale from 12 to 2,016 ports in any fiber count optimizing your ability to maximize fiber investment and assets.
