

High-frequency optocoupler module

High-frequency optocoupler module

This is where high-speed optocouplers, also called high-speed optoisolators, come into play. They provide galvanic isolation between circuits while supporting fast signal transmission, making them ...

In order to design a functionally robust and reliable application with optocouplers, it is essential to understand not only the device's main parameters and parasitic elements, but also their tolerances ...

Optocoupler module; Nominal input voltage: 24 VDC; Output voltage range: 3 ... 30 VDC; Limiting continuous current: 5 A; 2-wire connection; Module width: 6 mm; gray

High Speed Optocouplers are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for High Speed Optocouplers.

onsemi's 3.3V/5V high-speed logic gate optocouplers support isolated communications between systems without conducting ground loops or hazardous voltages. Each high speed optocoupler ...

The SFH6325 and SFH6326 are dual channel optocouplers with a GaAlAs infrared emitting diode, optically coupled with an integrated photo detector which consists of a photo diode and a high-speed ...

High Speed, Optocouplers/Isolators manufactured by Vishay, a global leader for semiconductors and passive electronic components.

Optocouplers are ideal when electrical isolation is required between control and power stages. For example, in industrial environments where PLCs or microcontrollers interface with high-voltage ...

Discover Renesas' IC output photocopiers (optocouplers) with high-speed response rates from 1Mbps to 15Mbps. Available in versatile DIP and SOP packages for surface mounting, these devices deliver ...

High-speed logic gate optocouplers that support isolated communications between systems without conducting ground loops or hazardous voltages.
