

High-precision optical multiplexers from New Zealand

Overview

Our range of vision and multisensor measurement systems use optical, laser and touch probe inputs to perform high precision 2D and 3D measurements. Ideally suited to the high speed measurement of a wide range of components including sheet metal, plastics, electronics and machined parts Our range of. Operating from Auckland, New Zealand, Southern Photonics specializes in optical systems design and manufacture, providing instruments and solutions for a wide range of test, measurement, lab and industrial needs. CSRAYZER's Polarization Maintaining Filter WDM PMFWDM Series Product, is based. Introducing the airFiber NxN, a thoughtfully engineered MIMO multiplexer that increases the amazing throughput of your airFiber link by up to 400%, while simultaneously establishing redundancy without the need of additional antennas. The airFiber NxN is a scalable MIMO multiplexer that combines. Pricing (NZD) Filter the results in the table by unit price based on your quantity. Mouser offers inventory, pricing, & datasheets for Encoders, Decoders, Multiplexers & Demultiplexers.

High-precision optical multiplexers from New Zealand

Our broad product line addresses technical challenges related to polarization, power equalization, laser-to-fiber delivery, and test and measurement in newer high-speed, optical networking systems.

Operating from Auckland, New Zealand, Southern Photonics specializes in optical systems design and manufacture, providing instruments and solutions for a wide range of test, measurement, lab and ...

Mouser offers inventory, pricing, & datasheets for Encoders, Decoders, Multiplexers & Demultiplexers.

Find a huge range of Multiplexers / Demultiplexers at element14 New Zealand. We stock a large selection of Multiplexers / Demultiplexers, including new and most popular products from the world's ...

Multiplexers are available in UV-Vis and Vis-NIR versions and are ideal for process and other environments where multiple locations need to be measured with a single spectrometer channel or ...

KiwiStar Optics specializes in designing and manufacturing high-precision optical components, including large lenses and spectrographs, tailored for the astronomy sector.

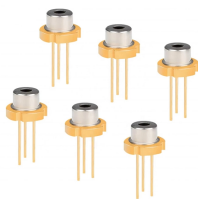

Introducing the airFiber NxN, a thoughtfully engineered MIMO multiplexer that increases the amazing throughput of your airFiber link by up to 400%, while simultaneously establishing redundancy without ...

The GKER Photonics 976/1064 nm Singlemode Wavelength Division Multiplexers (GK-WDM Series) are precision optical devices designed to manage light signals at 976 nm and 1064 nm wavelengths with ...

Our range of vision and multisensor measurement systems use optical, laser and touch probe inputs to perform high precision 2D and 3D measurements. Ideally suited to the high speed measurement of a ...

Discover a wide range of high-quality products at Rapid-Tech NZ. From Flir thermography cameras to moisture meters and more.
