

How many optical modules can be installed on the Huijue C600 board

Overview

A crew of simply 3-4 human beings can utterly install a Huijue Foldable Solar Container in about five hours, in contrast to weeks or months required for traditional photovoltaic installations. Engineered by means of Huijue Group in collaboration with HighJoule, this product blends contemporary photovoltaic science with a modular, foldable design, presenting dependable energy anywhere it is wished most—whether for far flung operations, emergency relief, or brief installations.
