

## How much does an IC fiber optic connector cost

### Overview

For fiber cable materials only, expect \$0.52 per foot for wholesale bulk purchases, or \$1 to \$6 per foot at retail. The wide price range reflects differences in fiber strand count, outer jacket construction, and application type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 8% may be applied if shipping to the United States. This guide presents ranges in USD and practical price estimates to help. Check each product page for other buying options.
