

How much does it typically cost to lay a 12-core fiber optic cable

Overview

The cost to install fiber optic cable ranges from \$1.50 to \$42 per foot, with installation costs accounting for 60-80% of total project expenses. According to the Fiber Broadband Association's 2025 report, median costs are \$8 per foot for aerial builds and \$18 per foot for trenching. Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Directional boring (road) is the fastest, lowest cost. Buyers typically pay for fiber laying by combining material costs, labor time, and permitting plus trenching or aerial support fees. You should account for permit.
