

How to set up a router with self-operated fiber optic internet

Overview

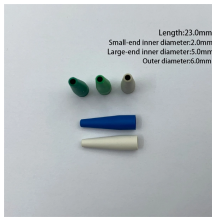

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. Instead of waiting for an appointment with a technician or trying to find a time that suits, you can have everything you need for a fast fiber connection shipped to your door, so you can set it up in your own time. Make sure to update the firmware, configure Wi-Fi security, and customize your network name for optimal performance. Self-Installation is a great way to set up your Fios Internet, TV and Phone service (s) when it's convenient for you. Verizon can mail you the equipment or you can pick it up at one of our Fios locations. When you've received your equipment, sign into My Verizon to get your Fios up and running with. Setting up a fiber internet connection requires understanding key hardware components and following a specific connection sequence to establish your home network.
