

Huijue Core Switch 9800

Huijue Core Switch 9800

Shop Huawei's CloudEngine 9800 Series, they are designed to meet the demands of next-generation data centers, cloud infrastructure, and campus core networks.

Using an advanced hardware structure, the switches provide high-density 100 GE/40 GE ports to support various data center features, and can function as core or aggregation switches on data ...

Huawei's CloudEngine 9800 Series sets a new standard for Data Center Core Switches, featuring ultra-high-density 100GE and 400GE interfaces, hardware-accelerated VXLAN, MACsec ...

CloudEngine 9800, 8800, and 6800 Series Switches V300R023C11 Product Documentation (hdx) Published On 2025-09-17 Views 3041 Downloads 415

On a typical data center network shown in Figure 60-15, CloudEngine 16800 series switches work as core switches (spine), whereas CloudEngine 9800, 8800, 6800, or 5800 series switches work as ...

CloudEngine 9800 series switches are designed for data centers, providing high-performance, high-density 100 GE ports, and low latency. [Learn more.](#)

Running on Huawei's next-generation operating system, the CloudEngine 9800 Series Switches deliver stable, reliable, and high-performance Layer 2 and Layer 3 switching services, and ...

This document provides an overall description of the CE6800& 8800& 9800 series switches hardware that V300R020C00 and later versions, helping you obtain detailed information about each chassis, power ...

Huawei CE9800 Series is a next-generation, high-density core switch built for data centers. It delivers ultra-low latency, flexible cards, and 400GE/100GE port options to meet evolving cloud network ...

This document describes the positioning, characteristics, appearance, and typical application scenarios of CE9800 series switches.
