

India ADSS fiber optic cable pre-twisted shunt strip

India ADSS fiber optic cable pre-twisted shunt strip

The pre-twisted protective wire or repair strip can be used as a repair strip to repair the damaged wire and restore its original mechanical strength and electrical conductivity.

As its name indicates, there is no support or messenger wire required, so installation is achieved in a single pass, making ADSS an economical and simple means of building a fiber optic network.

The ADSS cable shall be attached to the pulling rope using a double swivel eye and woven wire grip. The double swivel eye insures the ADSS cable will not see an induced torque as the pulling line ...
