

Install protective baffles on distribution boxes

Install protective baffles on distribution boxes

To connect multiple Box Baffle systems together, insert connectors into open ends of crossrunners and push systems together as shown. To cap ends of Box Baffle systems - insert end caps provided as ...

The Nutrient Separating Baffle Box is a multi-stage, self contained treatment system. Each subsequent component within the system protects prior stages from clogging issues or failures.

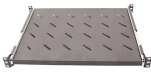

DISTRIBUTION BOX SHALL BE PRECAST CONCRCTE 3 SQUARE CAPABLE OF WITHSTANDING H-20 WHEEL LOADS. DISTRIBUTION BOX SHALL HAVE A MINIMUM AREA OF FEET, AND ...

Discover how our Debris Separating Baffle Box efficiently captures trash and debris from stormwater runoff.

The use of baffle boxes for pollutant removal is based on the concept of slowing the flow velocity through the box, thereby allowing solids and associated pollutants to settle to the bottom of the box. Storm ...

To connect multiple Box Baffle systems together, insert connectors into open ends of crossrunners and push systems together as shown. To connect two baffles together, butt the ends of baffles together ...

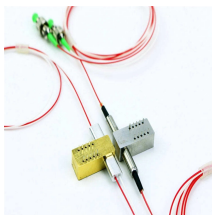

Total Settleable Solids (TSS) Removal
Conventional sedimentation is enhanced by patented flow-distribution technology that spreads and slows the flow at the inlet to allow more solids to settle.

Heavy Metals: While some documents indicate that heavy metals can be accumulated in baffle boxes, only one shows reduction in heavy metal concentration following the installation of baffle boxes (GPI ...

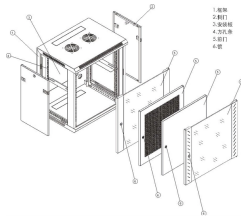

The baffle wall must be made of reinforced concrete or another suitable material resistant to corrosion, and have a minimum 4-inch thickness. The minimum clearance between the top of the baffle wall ...

Baffle boxes for pipes up to 48 inches in diameter can be precast, making installation quick and cost-efficient. Baffle boxes can be used for pipes up to 60 inches in diameter, but these boxes must be ...

Baffle boxes for pipes up to 48 inches in diameter can be precast, making ...

To compare the performance of the SAFL Baffle installed in a sump manhole to another device, I recommend copying and pasting the small “Summary” table into a spreadsheet program like ...
