

Installation of digital display meter in distribution box

Installation of digital display meter in distribution box

The DELTAplus Meter is an electronic electricity meter for DIN rail mounting in distribution boards or small enclosures. The meter is designed according to ABB's ProM standard.

5CR & 5XR meters are identical to 5CD & 5XD except without an internal disconnect. 2PD meters are identical to 5CR meters except configured for bi-directional PV services.

The illustrations and explanations in this manual describe how to construct and install services and equipment. Alternate designs and installations that do not meet the requirements in this manual will ...
