

Installation price of a 200A distribution box

Overview

A typical home replacement for a 100–125A indoor panel runs about \$1,200–\$2,500 in parts and labor; a 200A outdoor upgrade with new meter socket can reach \$3,000–\$6,000. Assumptions: standard conduit routing, existing wiring reachable within 10–30 feet, and a single dwelling. Typical cost ranges for replacing a distribution box or service panel in the United States vary widely based on panel size, amperage, labor, and whether a full service upgrade is needed. The main drivers are panel capacity, existing wiring condition, permit requirements, and whether any upgrade to. Buyers typically pay for a full panel replacement, including labor, materials, and permits. 81 after \$50 OFF your total qualifying purchase upon opening a new card. Need a Pro?
