

## Intelligent LCD PDU Power Distribution Unit

## Intelligent LCD PDU Power Distribution Unit

LCD touch screen smart PDU with a mix of IEC C13/C19 sockets delivers a comprehensive solution for power distribution and management in critical IT environments.

An intelligent PDU, also known as smart PDU, goes beyond distributing power to IT equipment within the data center. It is capable of monitoring, managing, and controlling power consumption to multiple ...

However, unlike traditional Power Distribution Units (PDUs), an iPDU goes beyond basic power delivery by incorporating intelligent features and network connectivity, allowing for real-time monitoring, ...

Monitor cabinet temperature and humidity with up to 4 environmental sensors per PDU, with provisions to set thresholds. Built-in web browser that displays total power consumption and temperature over ...

Provides reliable power distribution with color configurable LCD display featuring real-time remote/local monitoring and outlet control for connected equipment [Learn More](#)

PDU Product Selector Select the PDU that's right for you from 1,000+ unique models

The EL2P PDU provides reliable, intelligent power distribution in hospitals and clinics, reducing install complexity and enhancing uptime for medical networks and digital records systems.

Explore smart and basic PDUs for efficient power management in IT environments. Customize PDU modules to meet your specific needs and enhance system performance.

Designed for small and medium-sized data centers, it offers reliable power distribution and metering at the inlet level and support environment sensors to monitor temperature and humidity in rack.

iPower ACU is the 3rd generation of iPower intelligent PDUs designed to aid Data Centre power management. It has an Advanced Control Unit powered by an improved processor that delivers new ...

LCD touch screen smart PDU with a mix of IEC C13/C19 sockets delivers a comprehensive solution for power distribution and management in critical IT ...
