

Is fiber optic cable attachment legal

Overview

On July 26, 2024, the Federal Communications Commission (“FCC”) issued a Public Notice announcing that new pole attachment rules, which the FCC adopted in a December 2023 Report and Order, are effective as of July 25, 2024. A complete guide to the FCC regulations streamlining broadband infrastructure access, covering pole owner duties, rates, and application procedures. This connection allows service providers to deliver their services to customers by utilizing infrastructure owned by. When an internet service provider (ISP) is building a new broadband network or improving an existing one, it can bury cables in the ground or, if that is infeasible or too expensive, run those cables on existing utility poles. Therefore, utility poles and how ISPs gain access to them are central to.

Is fiber optic cable attachment legal

Utility poles with multiple existing services (e.g., telephone, electricity, cable) require policies to regulate pole attachments so that they do not inhibit new broadband deployment.

FCC's new rules on pole attachments aim to promote fast, efficient, and ubiquitous deployment of broadband facilities

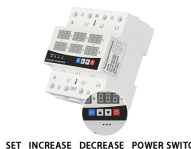

adopt rules (1) ensuring greater collaboration and cooperation between utilities and attachers, (2) establishing a timeline for large pole attachment requests, (3) improving the pole attachment ...

Broadband providers tend to argue to the FCC that utility companies delay projects by stalling attachment requests or unfairly passing off pole replacement costs.

DATA ADJUSTABLE, EASY TO USE

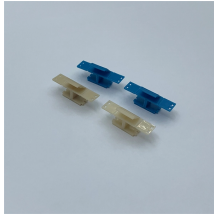

SET INCREASE DECREASE POWER SWITCH
