

Italian Fiber Optic Trench Factory

Overview

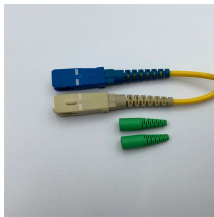

An innovative research center that brings together the entire Italian fiber optic communication network, where new technological solutions can be tested and developed, from fiber sensing to digital twin. Nicola Scafuro says he often points out the Fibra Ottica Sud (FOS) optical fibre plant to his wife with pride when he sees it from a distance. The optical fibre plant is one of Prysmian's three fibre plants in Europe, and Scafuro, its general director, is in charge of making sure this. Tratos is an international cable manufacturer with hundreds of thousands of square meters of facilities in Italy, the UK, Germany, and Spain. The company manufactures all the components of its cables, including conductors, insulating compounds, fiber optics, and finished cables. With nearly 28 million kilometres of fibre optic cable already laid – a distance equal to more than 700 times the Earth's circumference – and ultra-broadband coverage reaching over 96% of active lines, the. We are a group of telecommunications experts with extensive industry experience who, in 2022, partnered with Azimut Libera Impresa, Italian infrastructure fund for growth, to establish FibreConnect. Build a reliable and high-performance fiber-optic network to digitize businesses in Italian. Fibernet is dedicated to bringing

innovation to the fiber optic industry, emphasizing their commitment to advancing connectivity through cutting-edge products and technologies.

Italian Fiber Optic Trench Factory

Tratos is an international cable manufacturer with hundreds of thousands of square meters of facilities in Italy, the UK, Germany, and Spain. The company manufactures all the components of its cables, ...

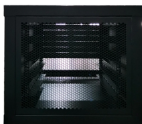

An innovative research center that brings together the entire Italian fiber optic communication network, where new technological solutions can be tested and developed, from fiber ...

FiberCop runs Italy's most advanced, extensive and pervasive digital network infrastructure.

We carry out mini-trench and traditional excavations for laying fibre optics and copper, manholes and equipment. We have our own vehicles and equipment, as well as personnel qualified in confined ...

The nearest town is Battipaglia, famous for its mozzarella cheese. The factory was expanded recently, and another expansion is in the works. Prysmian's achievement at FOS is remarkable not just ...

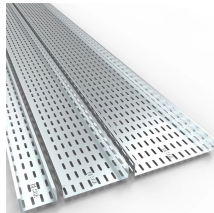

We perform design, project management and installation of any type of fiber optic infrastructure, from minitrench excavation to the installation of switchboards and modular wells.

Tratos has been supplying Telecom Italia since 1982, with whom it has an annual general agreement worth several million Euros both for copper cables and fibre optical cables. Using Lucent OFS and ...

CPE Italia specializes in designing and manufacturing fiber optic interconnection solutions, with a production capacity of several thousand cables per year and a global presence in multiple countries.

Build a reliable and high-performance fiber-optic network to digitize businesses in Italian Industrial and Artisan Areas with a greater demand for ultra-broadband connections.

Our turnkey optical fiber solutions provide for the design of any plant or infrastructure. We carry out excavations with mini-trenches, modular wells and panels, fttH cabling of offices, buildings and ...
