

Mali Power Distribution Box Project

Mali Power Distribution Box Project

The World Bank has approved \$157 million in financing from the International Development Association (IDA)* to help Mali improve the reliability and efficiency of the electricity system, increase access to ...

Revised in October 2025, this map provides a detailed view of the power sector in Mali. The locations of power generation facilities that are operating, under construction or planned are shown by type - ...

These projects aim to integrate Mali more deeply into regional electricity markets, allowing the country to draw power when domestic supply falls short and export surplus when available. For ...

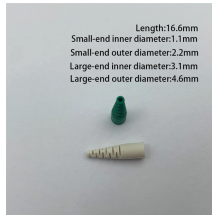

The project is central to Bamako's long-term development, where rapid urbanization, population growth, and rising energy needs have placed mounting pressure on an already fragile ...

The project will entail the construction of a 225-kilovolt double-circuit power line between the Kodialani and Dialakorobougou substations, and two new 225/33-kilovolt substations in Safo and ...

The Project Development Objective (PDO) is to increase access to electricity in selected areas of Mali and the integration of least cost solar energy by leveraging private finance.

Length:16.6mm
Small-end inner diameter:1.3mm
Small-end outer diameter:2.3mm
Large-end inner diameter:3.1mm
Large-end outer diameter:4.6mm

Implementation and supervision will be managed by Mali's state-owned utility Energie du Mali. The funding will support construction of a 225 kV transmission project in Mali.

Length:40.5mm
Small-end inner diameter:3.0mm
Large-end inner diameter:6.0mm
Outer diameter:7.5mm

In Mali, almost half the population has no access to electricity. The country's authorities, helped by major international funders, are working hard to remedy this situation. For isolated areas that are difficult to ...

At the core of this achievement is the delivery and installation of a fully integrated power distribution solution. The system is built around a high-performance 1250 kVA, 11kV/0.4kV distribution ...
