

Manufacturer of Single-Fiber Bidirectional SFP

Manufacturer of Single-Fiber Bidirectional SFP

Single Fiber Bidirectional SFP transceivers use simplex single-mode fiber to double the bandwidth, data rates up to 4G and distances up to 160km.

Single-fiber bidirectional Gigabit SFP modules with SC connector interface for legacy equipment compatibility. Offered in matched wavelength pairs covering 3km to ...

Supporting both copper and fiber optic cables, these modules enable seamless data transmission. Syrotech Networks, a leading provider in India, offers industry-standard SFPs designed for easy ...

BiDi (Bidirectional) SFP – Single-fiber SFP modules for FTTH and fiber-efficient networking, allowing both transmit and receive signals to travel over a single optical fiber.

Learn how to choose the right bidirectional SFP for single-fiber links. Compare wavelengths, distances, and compatibility to optimize your optical network.

Cleerline™ Bidirectional (BiDi) SFP transceivers are high performance, cost effective modules supporting data-rates of 1.25Gbps or 10Gbps and 20km transmission distance with single-mode fiber.

TP-LINK's TL-SM321B-2 and TL-SM321A-2 is designed to work in a pair to create an on-site gigabit fiber communication up to 2km (2,000 meters). With one single-mode fiber, the pair of modules can ...

Single-fiber bidirectional Gigabit SFP modules with SC connector interface for legacy equipment compatibility. Offered in matched wavelength pairs covering 3km to 40km distances, ideal for ...

SEL has qualified a range of SFP transceivers that meet the required temperature and environmental specifications of SEL products.

This data sheet describes the benefits, specifications, and ordering information for the Cisco SFP Modules for Gigabit Ethernet Applications.

We manufacture a range of bidirectional SFP transceivers for applications supporting data transfer rates of 10/100/1000Mbps, 100Mbps, 1000Mbps, and 10Gbps. They are compatible with standard SFP ...
