

## Mobile Expansion Splitter

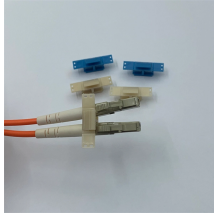

### Overview

Say goodbye to the cluttered confusion of multiple devices crowding your workspace. The ACASIS Powered USB Hub effortlessly organizes and tidies up your area, turning a messy pile of devices into a neatly connected hub, championing both efficiency and aesthetics. The ACASIS Powered USB Hub brings a revolution to your workspace and gaming hub with its unwavering performance. Offering 16 USB 3.1 ports, individually controlled switches, and a data speed up to 10 Gbps, it is designed for those who value efficiency, control and speed. Improve your efficiency with the ACASIS, enjoying stable, secure data transfer at speeds of up to 10Gbps. Save synchronization time and free up more time to work. With an advanced chipset and durable adapter, it ensures a stable power supply when you're working. Whether you need to manage multiple devices, transfer large data, or test device compatibility, it can perfectly handle it. The ACASIS 16 Ports USB HUB helps you manage and control all devices connected to the Hub,

enhancing your efficiency. With ACASIS, enjoy a no-lag, immersive gaming experience. Effortlessly connect peripheral devices like a mouse, keyboard, flash drive, card reader, or external hard disk drive to your laptop or Mac, and rest assured they'll operate at their best performance. An independent switch offers full control of each port - let the games officially begin! CI.
