

Namibia-based testing and certification company for cabinets

Overview

Whatever your product is a consumer products, a technical one, or raw material we can assist you with quality inspection, quality control, supplier audit, product testing and certification. If your product is not in the list, feel free to contact us to request to discuss about. A Biological Safety Cabinet (BSC), also known as a biosafety cabinet or containment cabinet, is a crucial piece of laboratory equipment designed to protect both the user and the environment from potentially hazardous biological agents, such as bacteria, viruses, and fungi. We have a highly qualified and dedicated team, with one goal, to bring the best results for our customers. Our Inspection department works in accordance with ISO 9001 Quality Standard. Non-Destructive. Instead, the country relies on the Southern African Development Community Accreditation Service (SADCAS), a multi-economy accreditation body that serves several SADC member states without national systems, including Namibia. SADCAS fully complies with ISO/IEC 17011 and is a signatory to the Global. The Namibian Standards Institution (NSI) is one of the key performance indicators (KPI) of the country's national quality infrastructure. The first is the National Quality Policy (NQP) adopted by the cabinet.
