

New Light Source for Bahamas Optical Power Meter

New Light Source for Bahamas Optical Power Meter

Bahamas Power and Light (BPL) Chief Operating Officer, Anthony Christie appeared at a press briefing at the Office of the Prime Minister last week where he was asked about the launch of ...

BPL does all it can to provide you with reliable, consistent electric power. Unfortunately, we cannot guarantee it will be there 24/7. Staying safe before and after the storm. Street Light Column Covers ...

The 81624C Optical Power Head features a large-area InGaAs detector. It provides the highest accuracy and the lowest noise in the family and operates in the wavelength range from 800 nm to 1700 nm.

Bahamas Power and Light is rolling out a smart meter pilot in Eleuthera to improve reliability and efficiency. COO Anthony Christie says the meters will allow real-time data collection, ...

Bahamas Power and Light is set to launch advanced metering infrastructure in 165 homes in Eleuthera before the end of the year, as part of a new pilot...

"AMI will involve both the installation of new metering systems at Bahamas Power and Light's (BPL) headquarters and the replacement of over 115,000 meters around the country."

The Tempo Communications fiber optic sources are available in dual and triple wavelength lasers and a dual wavelength LED. Accurate insertion loss measurements are possible when used in conjunction ...

Our benchtop optical power and energy meters are plug and play compatible with our wide range of calibrated optical sensors for the highly accurate and repeatable optical measurements required in ...

"These meters allow us to acquire data instantaneously, pinpoint issues in real time, and address them quickly," Christie said. "They will improve reliability, resiliency, and the overall way we provide ...
