

Nigerian Smart Cold Aisle Low-Loss Franchise

Overview

The partnership designs, builds, commissions and operates 100% solar-powered walk-in cold rooms branded as “ColdHubs,” for farmers, retailers and wholesalers to store and preserve fresh fruits, vegetables and other perishable foods, extending their shelf life from two to 21 days. ColdHubs prevents post-harvest losses, improves the livelihoods of smallholder farmers and food supply chain actors by providing affordable, solar-powered cold storage and IcePoints facilities, refrigerated transportation and packaging, making safe and nutritious food available for local. KAMIM Technologies, through its flagship projects like CoolCycle and SoCool, is pioneering a new era of cold chain solutions that empower smallholder farmers, expand market access, and slash carbon emissions — bringing climate-smart, inclusive growth to Nigeria's agricultural sector. KAMIM. Safe African Perishables Ltd (SPerishables) is building a practical cold chain platform that combines transport, storage, and aggregation infrastructure to improve how perishable goods move from producers to markets. Our AI-driven Mobile Platform connects farmers to food aggregators, optimizing logistics and reducing post-harvest losses. DELIVER THEM LEARN MORE FRESH We are your trusted

partner in coldchain logistics. We operate throughout the nation, delivering ambient, chilled and frozen products, pallets, parcels and emergency items. Since 2017, when How we made it in Africa first interviewed.
