

## Nordic Industrial Switch Module

## Nordic Industrial Switch Module

By using these modules you can leverage all the strengths of Nordic's SoC hardware and software architecture and make a "single module product" without the need for an additional microcontroller to ...

Integrating Nordic Semiconductor's multiprotocol nRF52840 SoC, the module replaces physical control cables with a wireless mesh network built on LumenRadio's "MiraOS" embedded operating system ...

The NORDIC machine protection doors have as standard safety switches integrated in the frames, providing a safe signal (cat 4, PLe) when the door is closed. To allow different stop positions of the ...

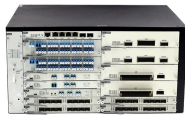

Integrating Nordic Semiconductor's multiprotocol nRF52840 SoC, the module replaces physical control cables with a wireless mesh network built on ...

Our design and solution partners offer qualified and certified modules ensuring easy integration and rapid deployment. By specifying Nordic, you can build a solution that combines Bluetooth LE, Matter, ...

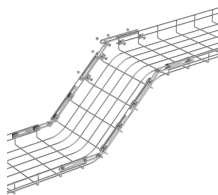

Industrial Series Switches provide rugged and reliable connectivity in harsh environments, featuring industrial-grade hardware, a wide operating temperature range, and strong protection against ...

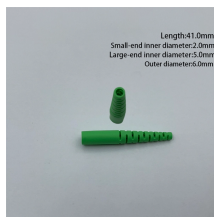

Powered by the Nordic Semiconductor nRF5340 high-end multiprotocol SoC's Arm® Cortex®-M33 dedicated application processor and low power network processor, the module provides high ...

- Inverter EMC designed with integrated filter for residential, commercial and industrial areas.
- Absolute encoder type multiturn (no battery needed), integrated in the gear box.

Powered by the Nordic Semiconductor nRF5340 high-end multiprotocol SoC's Arm® Cortex®-M33 dedicated application processor and low power network processor, ...

Keep your production and maintenance projects running smoothly. We supply new factory-sealed, refurbished, and tested used parts from leading manufacturers—covering active production, ...
