

Original genuine low-temperature resistant high-speed optoelectronic connector

Original genuine low-temperature resistant high-speed optoelectronic

Skyworks is the leading global supplier of high performance, high quality and radiation tolerant optoelectronic components for aerospace, defense, medical, extreme industrial and high-reliability ...

The LLF and SLF cards incorporate optical modules with preprogrammed parameters for configuration—only power and high-speed signalling is required. An I2C serial interface is provided to ...

High-performance Quasar OptiX Field Mountable Connectors (FMCs) simplify the termination of fiber optic cables in the field by enabling installers to avoid fusion splicing, epoxying and polishing.

KY-PD-18G-SM-HP InGaAs PIN photodetector is used for the high dynamic range analog RF links over fiber. It's high-performance PIN detector, which has the characteristics of high bandwidth, high ...

The HJ30J Series Micro Rectangular High-Speed Connectors are designed for high-density, high-speed board-to-board interconnections in chassis and cabinet-level applications, offering excellent electrical ...

Glenair PCB mount transceivers are ruggedized harsh-environment equivalents to SFP and QSFP transceivers but with mechanical design suited to the harsh temperature and vibration environments ...

Lite-On offers a broad range of isolation products that provide high performance, while maintaining cost efficiency, benefiting industrial, computing, consumer, clean energy, 5G smart grid, and automotive ...

The spiral armor loose sleeve air pipe product has the characteristics of high temperature resistance, low temperature resistance, high tensile and compression resistance, etc., providing stronger ...

Mouser offers inventory, pricing, & datasheets for Siemens Optoelectronics.

Search results for Optoelectronic, Optoelectronic Devices, Optoelectronic Sensors - RS.
