

PVC cable tray extruder

PVC cable tray extruder

The pvc trunking making machine is mainly used for producing various sizes of PVC profiles, pvc cable trunking, ceiling panel, window sill, WPC decking, WPC flooring and other shaped profiles.

About our KEBELN: Foshan KebeIn Plastic Machinery Co., Ltd is one of the leading manufacturers of plastic extrusion machines for pipes, profiles, sheets extrusion. It established in 2005. As one of the ...

Constructed with industrial-grade alloy steel and advanced temperature control modules, this machine supports continuous production of fire-resistant, insulating cable trays and trunking used in ...

With its co-rotating twin-screw design, this machine enables consistent production of lightweight yet durable PVC cable trays. Ideal for electrical infrastructure projects requiring flame-retardant, UV ...

The PVC cable extruder machine represents a cornerstone in modern cable manufacturing technology, designed to produce high-quality PVC cable insulation and jacketing with precision and efficiency.

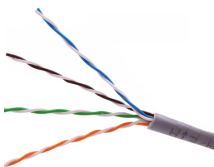

Explore the technical aspects and applications of a PVC Cable Extruder Machine. Learn how it enhances cable production efficiency in a professional setting.

This extrusion line is developed with the advanced extrusion technology by KEBELN. The main machine is the Conical Twin-screw Extruder, which is suitable for PVC trunking or PVC pipe extrusion.

Improve output with smart PVC cable trays extruder solutions. Experience durability and precision, perfect for big-volume production.

We provide super speed (10-15m/min) speed for PVC wall panel and ceiling board extrusion machine. And this machine consists MTE 65/138 extruder (450kg/hr), high speed ceiling mould, vacuum table, ...

Conical twin-screw extruder can convert thermoplastic especially PVC powder into pipe, plate sheet, film and profile, and also provide function of modifying and pelletizing.
