

Parameters of Lebanese Indoor Distribution Box

Overview

● The product is designed into three serial numbers according to current ratings. The GGD1-type cabinet has a rated current of 1000A, the GGD2-type cabinet has a rated current of 1600A, and the GGD3-type cabinet has a rated current of up to 3150A. ● The product's protection level is IP30. The GGD type AC low-voltage distribution panel is a technical development project issued by the former Ministry of Energy in 1992, with the premise of promoting the technological progress of China's low-voltage distribution industry and accelerating the upgrading of low-voltage distribution complete. We provide an extensive range of type-tested distribution boards for low-voltage (LV) electrical systems that are suitable for residential, commercial, and industrial properties. Whether it's a home, office, or factory. Equiplast SARL manufactures electrical pipes and electrical boxes to suit different industrial needs and purposes. We use different types of raw material in injection molding and film for the production of electrical products. The TS-DB indoor Distribution Points can be installed in two ways: direct wall installation and wall embedded installation.

Parameters of Lebanese Indoor Distribution Box

This guide explores control panels, electrical boxes, breaker panels, bus bars, junction boxes, and custom enclosures to help you understand their sizes, types, and common applications.
