

Prefabricated cable trays in the power distribution room

Prefabricated cable trays in the power distribution room

Common options include wire mesh trays, ladder trays, and solid-bottom trays, each suited to specific applications ranging from general power distribution to high-density data and fiber optic networks.

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.

Choose from our selection of electrical trays, including cable and hose trays, raceway, and more. Same and Next Day Delivery.

At Shilden, we provide ladder cable trays, perforated trays, wire mesh trays, solid bottom trays, and channel trays to meet various installation requirements. Whether you need a heavy-duty industrial ...
