

Price List for PAM4 Liquid-Cooled Switches for Data Center Interconnection

5-INCH COLOR TOUCHSCREEN

Intuitive operation, easily accessible with just one touch

Industrial-grade CPU
sensitive response
1 second startup
Smooth experience

Price List for PAM4 Liquid-Cooled Switches for Data Center Intercon

	<p>Cisco is actively innovating in direct-to-chip liquid cooling for high-performance switches, laying the groundwork for solutions that will enable seamless and scalable AI at unprecedented ...</p>
	<p>Amphenol's Rugged 256 Channel Ethernet Switch Box is liquid cooled and configurable for system connectivity, speeds, port types, and interoperation with ...</p>
	<p>It is designed for next-generation 1.6T data center networks and InfiniBand fabrics. The 1.6T OSFP 2xFR4 module adopts a dual FR4 architecture (2xFR4), providing 8 optical channels in total, with ...</p>
	<p>With 64 ports of 1.6Tbps Ethernet in a fixed 2U switch, the QFX5250 drives next generation AI networking performance. It is optimized for scalability, density, and sustainability to meet both the ...</p>
	<p>Built with high bandwidth and low latency, they are used to connect multiple leaf switches, and provide horizontal high-speed data transmission and forwarding functions.</p>

The Closed Finned Top (OSFP-IHS) version is suitable for Quantum-X800 air-cooled and liquid-cooled switches. It is the ideal solution for supercomputing and HPC industries, seamlessly integrating into ...

Learn how Molex's industry-leading comprehensive portfolio of 224 Gbps-PAM4 products and custom architecture designs are enabling a new type of data center built to meet the increasing demands of ...

GIGALIGHT's 400G OSFP SR8 liquid-cooled optical module is designed for immersive data center 400GBASE-SR8 Ethernet links. It utilizes 50G PAM4 and VCSEL technology and, with the FEC ...

The SN6800-LD features a 5RU liquid-cooled design with UQD8 v2 connectors and a 48-60 VDC busbar power architecture for efficient OCP-style rack integration into high-density AI data centers.

Amphenol's Rugged 256 Channel Ethernet Switch Box is liquid cooled and configurable for system connectivity, speeds, port types, and interoperability with various high-speed media converters and ...

The main application for MMA4Z00-NS is linking two switches together with up to 50-meter transceivers (marked blue). A flat-top version offered for liquid-cooled and DGX H100 Cedar7 ...
