

Price of right-angle bends for inclined bridge trays

Overview

TechLine Mfg perforated angle & channel cable trays from hot dipped galvanized, aluminum, & 304 SS finishes available. Contact us for a quote! A bend cable tray is a crucial component in electrical infrastructure systems, designed to route and support cables around corners, curves, and directional changes. Structural angles: Steel angles featuring a width, thickness, or height dimension of three inches or greater, providing increased structural support. Unequal steel angles: A right-angle. This bend provides a 45° angle bend when connecting cable tray sections. Common cable tray fittings include cable tray elbows, tees, crosses, bends, risers, reducers, bolts and nuts, locks, expansion screws, supporting brackets, suspension rods, cross arms, bases, connecting plates, covers, fixings, cable cleats, and system dividers. An adjustable bend with 30°, 45°, 60°, 75° & 90° configurations is also available for medium and heavy duty trays up to 300mm wide. 5"L; Black; Cable Capacity - 947 Category: 90° Vertical Outside Tray Bend 90° Radius Juncture, 2 inch Depth x 12 Inch Width, Pre-Galvanized Steel.
