

Rack-mount fiber optic splitter chassis

Rack-mount fiber optic splitter chassis

The 1RU panel is 19 and 23 inch rack/wall mountable and the design provides a robust, plug-in style method for integration within the network.

Rack Mount PLC Splitters integrate high-density PLC splitters into a standard 19-inch rack-mount enclosure for centralized fiber distribution.

Explore CommScope's efficient and scalable fiber splice panels designed for seamless connectivity. Accommodating LC, SC, and MTP/MPO connectors, these panels are ideal for data centers, ...

Built rugged for the most demanding environments, this 3U high and 19" wide rack chassis is ideal for a wide array of applications including Telecom, CATV, PON, LAN, and WDM systems.

HeyOptics offers 1xN 2xN Rack Mount PLC Splitters. This Fiber Splitters enable a single PON Interface to be shared by many subscribers for FTTH.

Explore FS rack-mount PLC splitters for high-density fiber networks. Choose LGX, FHD®, or 1U options for easy installation, stability, and cost-effective PON integration.

FIBERONE® provides optical fiber splitters (couplers) in both LGX and rack-mount configurations. Our LGX style optical splitter module is designed to either stand alone or attach to a fiber patch panel that ...

This 1U rack chassis is specifically designed to house up to 12 ABS box PLC splitters, making it ideal for FTTH and high-density applications. By maintaining multiple ratio rack mount splitters, the chassis ...

FS 1U Rack Mount Fiber Enclosure with extended enclosure depth for more PLC splitters or cables storage, fewer rack units for higher patch field density, and sliding drawer for better panel access ...

Rack-mount fiber optic splitters are passive optical splitters integrated into standard rack-mounted chassis, typically installed in telecom racks, ODF frames, or central office distribution systems.
