

Samoa Optical Cable Extruder Head

Samoa Optical Cable Extruder Head

One of the most important part of a cross head is the melt distributor. Its task is to uniformly distribute the molten polymer, delivered from the extruder, around the cable. To achieve this goal, a close ...

Usage: Apply to various core wires of communication cables, data cables, coaxial cables, and audio/video cables extrusion Such as HDMI, DP, CAT5E, DVI, CATV, ATA, RG, SYWV, and JIS ...

We provide solutions and equipment for optical glass making, fiber drawing, fiber coating, ribbon making, proof testing and fiber optic cable production. Our technology is used to produce telecom preforms, ...

This machine is applicable to bunching of various kind of cables such as power cable, communication cable, computer and instrument cable, copper conductor, aluminum conductor, BV, BVV, RV and ...

We design and manufacture Crosshead and In-Line Head tooling to extrude Wire & Cable products from small electronic lead wire to large multi-lead high voltage cable. All heads are capable of multi-layer ...

We provide crossheads for specialized applications, including optical fibers, submersible cables, and high-tension power lines, engineered to improve overall production throughput.

Features Crossheads for cable extrusion Range of fixed or manual centering Crossheads for rubber extrusion Dual or single layer extrusion Suitable for LSF materials Coextrusion dieheads Stainless ...
